Email: WebCT is the preferred method of communication for this class and will be used for faculty updates and announcements. If you are unable to access Blackboard feel free to contact me by campus email at jamie.buchanan@mwsu.edu

COURSE DESCRIPTION: This course is an introduction to major concepts of concern in the discipline of nursing: person, environment, nursing, and health. Nursing theories and ethical – legal principles related to professional nursing practice are studied. Also addressed are the concepts of critical thinking, communication, and cultural awareness in the context of the nursing process. This course will not be teaching any clinical skills.

CREDIT HOURS: Three (3) credit hours

PREREQUISITE: Declared Nursing Major: Sophomore standing

LEARNING EXPERIENCES: Includes reading and writing assignments, in class and online discussion, interactive learning activities, formal interview paper, lecture, guest presentations, and media.

AACN Essentials: For further information regarding the AACN Essentials identified for each course objective, refer to http://www.aacn.nche.edu/education-resources/baccessentials08.pdf.

DEC Competencies: In the DEC Competencies below, the following designations apply: I: Provider of Patient Centered Care, II: Coordinator of Care, III: Patient Safety Advocate and IV: Member of the Health Care Team. For further information regarding the competencies identified for each course objective, refer to http://www.bon.texas.gov/about/pdfs/delc-2010.pdf.

**REQUIRED TEXT:**

**Required Medical Terminology Course:** [http://www.dmu.edu/medterms/](http://www.dmu.edu/medterms/)
- This course is provided for FREE! Please DO NOT pay for a certificate. It is not required to purchase anything for this course.

**Suggested:**
Online APA Resource - [http://owl.english.purdue.edu/owl/resource/560/01/](http://owl.english.purdue.edu/owl/resource/560/01/)

**COURSE EVALUATION:**
Course requirements and percentages for computation of the final grade are weighted as follows:

<table>
<thead>
<tr>
<th>Component</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Unit Exams</td>
<td>75%</td>
</tr>
<tr>
<td>Interview Paper</td>
<td>10%</td>
</tr>
<tr>
<td>Ethical Issue Presentation</td>
<td>5%</td>
</tr>
<tr>
<td>Discussion Board</td>
<td>5%</td>
</tr>
<tr>
<td>Classroom Participation</td>
<td>5%</td>
</tr>
<tr>
<td>Total</td>
<td>100%</td>
</tr>
</tbody>
</table>

*5th exam is the course final. This is a non-comprehensive exam
*There will be 10 medical terminology questions on each exam pertaining to your weekly assignments. Refer to calendar for schedule of assignments.

An overall course grade for a total of 74 points must be achieved to pass any nursing course. Grades will be based on the above computation, and all assignment/evaluation components must be completed to receive a passing grade. **There will be no rounding up of grades in this or any nursing course.**

**MSU Department of Nursing Grading Scale:**
90-100 .................................................. A  
80-89 .................................................. B  
74-79 .................................................. C  
65-73 .................................................. D  
64 and below  ....................................... F

**UNIT EXAMS (75%)**
There will be five unit exams for this course. Exam content will include class content and reading assignments to include medical terminology. Students need to purchase Scantrons. Students must have an MSU ID on the desk during all Exams. **Students are expected to bring 5 Scantrons to class the first exam and come prepared with a pencil.** No cell phones, purses, hats, drinks (bottled water only) or food are allowed at your desk during exams.

**Missing Exams:** If you have to miss an exam for any reason you must notify the course coordinator by phone or email 2 hours before missing an exam, to avoid a zero. Make up exams may be scheduled but students are responsible to email and make arrangements for a makeup on an individual basis as soon after missing the exam as possible. Make up exams may be essay and short answer instead of multiple choices.

**INTERVIEW PAPER:** (10%) See grading rubrics posted online

**Part I Conduct your Interview:**
- Each student will interview a registered nurse (Diploma, Assoc., Bachelor’s, Master’s Degree all acceptable) currently practicing in a patient care setting. You may interview someone you know.
- Students should seek information during the interview that address questions on the grading rubric form.
- Remember to maintain confidentiality, so no reference is to be made, either verbally or in writing, to a specific nurse. Please make up a name. **No paper using an individual’s real name will be accepted.**

**Part II Write the Paper:**
- After you conduct your interview, write your paper using the grading rubric to guide you. Take a look at the current nursing literature and **compare and contrast** what you read with what you learned from the nurse you interviewed addressing the topic on the grading rubric posted on WEBCT. Be careful as the topic **changes each semester**. Be sure to cite 2 nursing articles from a professional peer-reviewed nursing journal in your discussion and your textbook as a third reference somewhere in your paper for a total of 3 references.
- The paper is to be typewritten according to APA guidelines, double-spaced, and the body of the paper is to be about four to five pages in length.
- You will also have a title page and a reference page. You do not need an abstract.
- Total of 3 references (2 articles and your textbook). Be sure to cite your sources correctly using APA format.
- Papers will be submitted with rubric attached in class (stapled; **no folders**) **by scheduled due date at the start of class at 1 pm.** If you have an emergency that precludes you meeting this deadline; please negotiate with the faculty for an extension PRIOR to the due date. 5 points will be deducted from interview paper for every day it is.

**Plagiarism may result in failure of the class and/or barring of admittance to the nursing program at MSU.** By enrolling in this course, the student expressly grants MSU a “limited right” in all intellectual property created by the student for the purpose of this course. The “limited right” shall include but shall not be limited to the right to reproduce the student’s work product in order to verify originality, and for educational purposes. Ideas taken from another source, whether quoted or paraphrased must be documented using APA guidelines.
ETHICAL ISSUE PRESENTATION DISCUSSION GROUPS (5 %)
This is an opportunity for students to share the results of their online discussion of an ethical issue discussed in their discussion group with the rest of the class. The ethical issues PowerPoint will address an ethical issue associated with the practice of nursing. The issue selected for discussion should have clearly identifiable pros and cons which when analyzed will allow the student to form a defensible position related to the issue. Principles from identified codes of ethics should be examined in relationship to the issue and position. I will post suggested topics online.

DISCUSSION BOARD ASSIGNMENTS (5 %)
Faculty will post 2-3 discussion questions on Blackboard during the semester. Students will answer questions in their assigned group online. Each discussion question requires an initial written response and students are expected to read and comment on at least two of your classmates responses for each of the posted discussion questions to receive full credit. See the following grading criteria. Late responses will not receive credit as students have a week to complete each question. Initial responses are worth more points than follow up postings.

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Non performance</th>
<th>Basic</th>
<th>Proficient</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applies course principles</td>
<td>The posting does not reflect the learner understood the content.</td>
<td>Participates with superficial content that does not engage the reader.</td>
<td>Participation includes depth, quality, appropriate content</td>
</tr>
<tr>
<td>Responds to two other learners</td>
<td>Fails to respond to other learners.</td>
<td>Only brief comments that do not add to discussion.</td>
<td>Substantive comments posted in response to two other learners</td>
</tr>
</tbody>
</table>

CLASS PARTICIPATION (5%) Class participation consists of class attendance including, but not limited to participation in group projects and discussions.

MEDICAL TERMINOLOGY ONLINE COURSE
This course is mandatory. This course is web-based and is located at: [http://www.dmu.edu/medterms/](http://www.dmu.edu/medterms/). This course is FREE. Please DO NOT purchase the certificate that they provide! This is NOT a required part of this course. Refer to your calendar for weekly assignments. This online course consists of readings pertaining to a variety of medical terminology topics and also contains quizzes to test your knowledge. Your unit exams will contain 10 medical terminology questions from the assignment sections during that unit. Upon completion of the online medical terminology course, the instructor will add 5 medical terminology questions from ANY of the sections of the medical terminology course. This course builds upon itself to enable you to better understand and break apart medical words. This will set the foundation for better understanding of disease processes and nursing care in your future courses.
**BONUS HOMEWORK / LEARNING EXPERIENCES**

At least three or four homework assignments will due at the **beginning of class** (see homework handout) others homework may be assigned throughout the semester and announced in class. Homework assignments will be worth two bonus points each on the next scheduled exam. Homework is due only on the day scheduled for the purpose of in-class discussion and cannot be made up.

**AMERICANS WITH DISABILITIES ACT**

The following is the ADA/504 statement that the faculty approved on May 9, 1995: Midwestern State University does not discriminate on the basis of an individual’s disability and complies with Section 504 and the Americans with Disabilities Act in its admission, accessibility, and employment of individuals in programs and activities. MSU provides academic accommodations and auxiliary aids to individuals with disabilities, as defined by law, who are otherwise qualified to meet academic employment requirements. For assistance call (940) 397-4618 or (940) 397-4515, TDD. Please see the instructor outside of class to make arrangements involving special accommodations.

It is the student's responsibility to declare any disabilities. After declaration, preferably at the beginning of each semester, the student needs to contact individual instructors to determine any reasonable accommodations that may be required.

**CHEATING POLICY:**

The Wilson School of Nursing **does not tolerate cheating**. Cheating is considered a serious offense that could result in automatic failure of a class and/or removal from the program. The MSU Student Handbook (available at the Information desk in the Clark Student Center) defines various forms of academic dishonesty and the procedures for responding to them. Please familiarize yourself with this portion of the BSN handbook and note that the penalties for plagiarism and other forms of cheating can be quite harsh. Cheating is defined by the faculty to include dishonesty on examinations and plagiarism.

Plagiarism is further defined as “the act of using source materials of other persons (either published or unpublished) without following the accepted techniques of crediting, or the submission for credit of work not the individual’s to whom credit is given.” (MSU BSN Student Handbook, Standards of Conduct, Item 10). Offending material that may constitute plagiarism includes, but is not limited to the following: bibliography cards, formal papers, book reports, written nursing care plans, etc. Plagiarism is also defined by the MSU Nursing faculty as failure to follow the APA 6th edition guidelines for citation of quotations and paraphrased material.

**Class Etiquette**

We find that we all do much better when expectations are identified early. Everyone then knows what to expect, and it is with this in mind that these class guidelines have been written.

1. We are dedicated to providing an optimal learning experience in this nursing class and appreciate written feedback about this class at anytime.
2. Copies of written student assignments may be kept on file by faculty for accreditation purposes.
3. Don’t let yourself get behind. If you are having trouble, please contact one of your faculty members immediately. The faculty’s office hours are posted on our doors.

4. When participating in class discussion, talk to the entire class - not just to the person(s) next to you. Talking to your neighbor while either a faculty member or a classmate is speaking to the class is not considered respectful of others and is distracting to all other class members.

5. Cell phones may not be used at anytime during the class and this includes texting during class. Students seen texting may be asked to leave. Laptop computers may be used by individuals for note taking. If students around you are distracted or you are found to be surfing or conducting personal business you will be asked to leave or shut off the laptop.

Student Honor Code

"As an MSU Student, I pledge not to lie, cheat, steal, or help anyone else do so."

As students at MSU, we recognize that any great society must be composed of empowered, responsible citizens. We also recognize universities play an important role in helping mold these responsible citizens. We believe students themselves play an important part in developing responsible citizenship by maintaining a community where integrity and honorable character are the norm, not the exception.

Thus, we, the Students of Midwestern State University, resolve to uphold the honor of the University by affirming our commitment to complete academic honesty. We resolve not only to be honest but also to hold our peers accountable for complete honesty in all university matters.

We consider it dishonest to ask for, give, or receive help in examinations or quizzes, to use any unauthorized material in examinations, or to present, as one’s own, work or ideas which are not entirely one’s own. We recognize that any instructor has the right to expect that all student work is honest, original work. We accept and acknowledge that responsibility for lying, cheating, stealing, plagiarism, and other forms of academic dishonesty fundamentally rests within each individual student.

We expect of ourselves academic integrity, personal professionalism, and ethical character. We appreciate steps taken by University officials to protect the honor of
the University against any who would disgrace the MSU student body by violating the spirit of this creed.

Written and adopted by the 2002-2003 MSU Student Senate.
